GRACE MURIITHI

A dedicated Computer Science student passionate about software development and problem-solving. I excel in dynamic environments, leveraging my skills in backend and frontend development, system integration, and debugging to create efficient, scalable solutions. Always eager to learn, I stay updated on technological advancements and aim to contribute to innovative projects.

Work experience

Intern
May 2024 - Sep 2024

Emmerce, Nairobi

I completed an internship at Emmerce, where I gained valuable experience in programming and system development. During this time, I developed strong backend programming skills using Django and Python, worked with WooCommerce for e-commerce integration, and utilized Vue.js for frontend development. Additionally, I refined my debugging techniques and enhanced my problem-solving abilities, further strengthening my proficiency in software development.

Full Stack Developer
Emmerce Limited, Nairobi *May 2026 - Present*

Full stack developer on a Tyre Management System, handling backend (Django/Python), frontend (Vue.js), and database. Responsibilities include ongoing development, system management, debugging, and bug fixes. Collaborating with the mobile developer to support and maintain the mobile application.

Junior Developer
Mar 2025 - Present

Julius Wambua, Nairobi

Working as a junior frontend developer on a Sacco Financial Management System.

Website Developer
Sep 2024 - Nov 2025

Peter Chege, Nairobi

I gained experience as a website developer by designing and developing profile websites for two different organizations.

Education and Qualifications

Bachelor of Science in Computer Science
Sep 2022 - Apr 2026

The Catholic University of Eastern Africa, Nairobi

I am currently a Computer Science student with experience in various programming languages and frameworks. Over the years, I have developed proficiency in Python, C, C#, Java, JavaScript, HTML, CSS, C++, and the .NET Framework, as well as working with MySQL for database management.
